ECED 7220 Early Childhood Environments 2-2-3
Principles for planning and implementing appropriate programs and learning environments for young children are presented. Program alternatives and models in early childhood education are presented. The integration of computer technology in supporting appropriate programs for young children will be included. Students will plan and implement changes in a classroom environment to address the principles examined in the course.

ECED 7320 Curriculum and Instructional Strategies P-5 3-0-3
Review of the content areas in the early childhood curriculum. Emphasis will be placed on implication of effective strategies that utilize a variety of resources and technologies to enhance teaching and learning within diverse environments.

ECED 7330 Issues and Trends in Early Childhood Education 3-0-3
Examination of research, trends, and problems in early childhood education, with special reference to professional ethics, mentoring, and various delivery systems for early childhood education programs. Focus is on the impact of relevant federal, state, or local public education issues and trends.

ECED 7410 The Social Sciences in Early Childhood Education 3-0-3
A study of the influence of the social sciences in early childhood education. The content, curriculum, and implementation of the social studies program are examined. The application of interdisciplinary knowledge from related fields such as sociology, psychology, health services, special education, history, philosophy, and anthropology to social learning is explored. Relevant computer software to support the social science curriculum in early childhood will be included. The student will plan and implement curricular improvement based on theory and practice examined in the course.

ECED 7420 Child, Family, and Society 2-0-2
Examination of the research and dominant theories of human development and sociocultural development within the context of the family, community, and society. Strategies for collaboration between home and school will be emphasized, and interagency cooperation within the community will be examined in relation to the benefits for young children and their families. The student will investigate a variety of community agencies serving children and families to enhance and apply an understanding of community resources which support the education of young children.

ECED 7430 Integrating Math, Science, and Technology in Early Childhood Education 3-0-3
Explores the integration of curriculum in math, science, and technology. Special emphasis is placed on the utilization of inquiry methods for enhancing children’s ability to analyze, to evaluate, and to make inferences from oral, written, and visual materials. Methodology for developing the skills of problem solving, decision making, and critical and creative thinking skills is explored. The use of computer technology to enhance the math, science, and technology curriculum will be included. The student will plan and implement curricular improvement based on theory and practice examined in the course.

ECED 7540 Children, Play, and Development 3-0-3
Focus on the definitions and the characteristics of play as a basis for understanding cultural and gender differences and similarities in children’s play, the multiple stages of play by developmental age, play in special populations, and the relationship of play to intellectual, social, physical, and emotional development. Field based observations and experiences with multiple ages of children as they engage in play is included.

ECED 7550 The Integrated Early Childhood Curriculum 3-0-3
In depth investigation of developmentally appropriate ECE integrated curricula which employ a holistic philosophy of ECE. Principles and processes of integrated curriculum development will be examined.

EDAT 6159 Multicultural Studies Across the Curriculum 3 credit hours
An examination of professional literature, curricula, and teaching practices related to cultural diversity in education settings. The course critically examines how traditional education promotes or hinders student success and identifies elements of culturally responsive pedagogy and their application to curriculum development and learning. The course requires a 10-hour field experience in which teachers explore the cultural resources of the communities in which they work.

EDAT 6226 Curriculum Design for Student Achievement 3 credit hours
An investigation of best practices in curriculum development, curriculum alignment reflecting state and national standards, and assessment in ensuring high student achievement. The course explores subject-specific pedagogical content, related content areas, and inclusion of resources and technology that enhance curriculum development and implementation in the classroom. The course requires a 30-hour field experience in the public school environment in activities related to curriculum development and alignment.

EDAT 7100 Research Methodology in Education 3 credit hours
A survey of education and educationally-related research methods incorporating an applied approach to research design. The ability to read, interpret, conduct and report research is emphasized to improve practice in educational settings.

EDAT 7131 Enhancing Student Performance 3 credit hours
Best practices for selecting and adapting curriculum instructions resources and assessments in order to maximize student learning. The course provides teachers with a way to identify, analyze, and use results from student assessments to plan instruction aimed at enhancing and demonstrating student learning.

EDAT 7132 Framework for Teaching 3 credit hours
A study of teaching and learning strategies associated with effective teaching practices. Emphasis is placed upon the relationships that exist between student development, instructional practices, educational environments, continuous reflection and assessment, learning communities, and dispositions of the profession.

EDAT 7133 Trends, Issues, and Research in Education 3 credit hours
Frameworks for designing and evaluating educational practices and programs within the context of current trends and issues in education. Emphasis is placed on specific research findings and their applications to practice, in addition to the development of analytical and communicative skills needed to improve teaching and learning.

EDUC: EDUCATION

EDUC 8010 Reflective Teaching Practices Seminar 3-0-3
Graded “Satisfactory” or “Unsatisfactory.” Introductory course for a six-course sequence of core classes for the Educational Specialist degree. National Board for Professional Teaching Standards are used for the candidates’ self-assessment of professional goals that are based upon an understanding and application of a master teacher as leader. This course provides the basis for an individual program of study by identifying appropriate guided electives.

EDUC 8020 Using Assessment and Research Data 3-0-3
Prerequisite: EDUC 8010. Techniques for establishing reliable and valid data sources for student, classroom, and school-improvement decisions. Students learn how to utilize technology tools for educational management.
EDUC 8030 Developing and Leading a Community of Diverse Learners 3-0-3
Prerequisite: EDUC 8010. Examination of the impact of cultural, multicultural, diversity, and exceptionality issues on adults’ and children’s relationships, communication, and educational practices in American schools. Appropriate verbal and nonverbal communication techniques are addressed.

EDUC 8040 Strategic Planning for School Reform 3-0-3
Prerequisite: EDUC 8010. Study of major theories and practices in the development and evaluation of school-based programs, including curricular, co-curricular, and staff development initiatives for the improvement of student learning.

EDUC 8050 Action Research 3-0-3
Prerequisite: EDUC 8010. Practical action research utilized for the purpose of school reform and student achievement; an examination of the reflective roles of the classroom teacher and how reflection may lead to school improvement.

EDUC 8880 Capstone Seminar 3-0-3
Prerequisites: EDUC 8010, EDUC 8020, EDUC 8030, EDUC 8040, EDUC 8050. Capstone course resulting in a portfolio demonstrating candidates’ analysis of teaching, leadership, and mentoring. Analysis is based on the National Board Standards, educational specialist degree goals, professional development program plan designed in EDUC 8010, and candidates’ school-improvement plans.

ENGL: ENGLISH

ENGL 6000 Graduate Option 3-0-3
An English Department course, numbered 4000 or above, which may be taken at the graduate level with appropriate adjustments agreed on by the student and the professor.

ENGL 6000 Studies in Composition Theory 3-0-3
Prerequisite or co-requisite: ENGL 3060 or ENGL 3080, depending upon major track. A study of the theory and practice of composition pedagogy, including crafting assignments; planning, drafting, and revising texts; and evaluating student writing.

ENGL 7000 Approaches to Graduate Study 3-0-3
An introduction to the fields and methods of research and writing in graduate literary study.

ENGL 7010 Approaches to Critical Theory 3-0-3
An introduction to the role and function of literary criticism in the context of literary studies.

ENGL 7110 Studies in British Literature to 1500 3-0-3
A focused survey in the area of British literature to 1500, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7120 Studies in British Literature 1500-1660 3-0-3
A focused survey in the area of British literature from 1500-1660, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7130 Studies in British Literature 1660-1800 3-0-3
A focused survey in the area of British literature from 1660-1800, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7140 Studies in British Romantic Literature 3-0-3
A focused survey in the area of Romantic literature, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7145 Studies in Victorian Literature 3-0-3
A focused survey in the area of Victorian literature, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.
ENGL 7150  Studies in Modern and Contemporary British Literature  3-0-3
A focused survey in the area of modern and contemporary literature, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7210  Studies in American Literature to 1800  3-0-3
A focused survey in the area of American literature to 1800, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7220  Studies in American Literature 1800-1865  3-0-3
A focused survey in the area of American literature from 1800 to 1865, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7230  Studies in American Literature 1865-1914  3-0-3
A focused survey in the area of American literature from 1865 to 1900, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7240  Studies in Modern and Contemporary American Literature  3-0-3
A focused survey in the area of modern and contemporary American literature, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7300  Studies in Special Topics  3-0-3
A focused survey in a selected topic, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7320  Studies in Genre  3-0-3
A focused survey in genre studies, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

ENGL 7600  Studies in Rhetoric and Composition  3-0-3
A focused survey in the area of rhetoric and/or composition theory.

ENGL 8110  Seminar in British Literature to 1500  3-0-3
A seminar in the area of British literature to 1500.

ENGL 8120  Seminar in British Literature 1500-1660  3-0-3
A seminar in the area of British literature from 1500-1660.

ENGL 8130  Seminar in British Literature 1660-1800  3-0-3
A seminar in the area of British literature from 1660-1800.

ENGL 8140  Seminar in British Romantic Literature  3-0-3
A seminar in the area of Romantic literature.

ENGL 8145  Seminar in Victorian Literature  3-0-3
A seminar in the area of Victorian literature.

ENGL 8150  Seminar in Modern and Contemporary British Literature  3-0-3
A seminar in the area of modern and contemporary British literature.

ENGL 8210  Seminar in American Literature to 1800  3-0-3
A seminar in the area of American literature to 1800.

ENGL 8220  Seminar in American Literature 1800-1865  3-0-3
A seminar in the area of American literature from 1800 to 1865.

ENGL 8230  Seminar in American Literature 1865-1914  3-0-3
A seminar in the area of American literature from 1865 to 1900.

ENGL 8240  Seminar in Modern and Contemporary American Literature  3-0-3
A seminar in the area of modern and contemporary American literature.

ENGL 8300  Seminar in Special Topics  3-0-3
A seminar within the area of language and/or literature.

ENGL 8320  Seminar in Genre  3-0-3
A seminar in genre studies.
ENGL 8600  Seminar in Rhetoric and Composition  
A seminar in the area of rhetoric and/or composition theory.  

ENGL 8690  Workshop in Rhetoric and Composition  
Writing-intensive and leadership course for teachers that promotes writing-to-learn across subject areas and grade levels. Participants write for personal and professional reasons, research composition theory, and design a lesson based on their experience. The four-week program provides nine Staff Development Units or six hours of master’s degree credit. The course requires formal application and interview into the South Georgia Writing Project. Graduates from this program also participate in at least two programs, either through their school or the South Georgia Writing Project over the course of the following year.

ENGL 8700 Directed Study  
Research in selected areas of language and literature.

ENGL 8800  Seminar for Teaching Assistants  
A seminar for graduate students currently teaching composition courses.

ENGL 8999  Thesis  
Individualized study and research in preparation for a work of fifty or more pages demonstrating competent and substantial research coupled with an innovative approach to the subject matter. May be repeated for credit.

ESOL: ENGLISH FOR SPEAKERS OF OTHER LANGUAGES

ESOL 6010  Applied Linguistics for ESOL Teachers  
A study of the nature, structure, and diversity of language, emphasizing the phonological, syntactic, and semantic patterns of English in comparison and contrast with feathers of other selected languages. Prospective teachers will explore the principles of linguistic systems and major theorists and schools of linguistic thought within the cultural framework of working with communities of non-native English speakers.

ESOL 6020  Cultural Perspectives for ESOL Teachers  
A study of culture and its relationship with language and education. Prospective teachers will investigate theories related to the nature and role of culture and cultural programs in the construction of learning environments and support linguistically diverse learners.

ESOL 6030  Methods and Materials for Teaching ESOL  
Methods of teaching English at the elementary-, middle-, and high school-levels to students whose first language is not English. Topics includes theories of second language acquisition, instructional strategies and materials, methods of evaluating proficiency and progress, and curriculum-building.

FLED: FOREIGN LANGUAGE EDUCATION

FLED 7100  Professional Development Seminar I  
Through interaction with peers and education professionals, students perform self-assessment, determine areas of skill and knowledge in need of improvement, and design an effective career growth and development plan, as a preliminary step in expanding and modifying their personal teaching strategies.

FLED 7500  Theory and Practice in Second Language Acquisition  
Discussion, analysis, and practice of the various theories and models of second-language acquisition.
FLED 7600  Research and Design  2-0-2
Research curriculum design in foreign language education with emphasis contemporary issues.

FLED 7800  Professional Development Seminar II  2-0-2
A capstone experience requiring students to reflect upon their teaching experiences through interactions with peers, secondary education professionals and other educators in their content area. The preparation and presentation of a portfolio reflecting their student teaching experience is required.

FREN: FRENCH

FREN 5410  Francophone Literature  3-0-3
Selected works of 20th-century Francophone writers from the French-speaking community outside of France, especially the Caribbean, Africa, and Quebec.

FREN 5610  Women Writers of 17th-Century France  3-0-3
Selected literary works of major women writers of 17th-century France.

FREN 5630  Topics in French Language or Literature  1-0-1
Intensive study to improve the student’s ability in a particular area of French language or Francophone literature. This course requires independent work of the student and may be repeated with different topics for a total of 3 hours.

FREN 6400  French Phonetics and Advanced Conversation  3-0-3
Study of phonetic principles and their applications.

FREN 6410  French Composition and Advanced Grammar  3-0-3
Advanced study of grammar, practical composition, and refinement of written expression.

FREN 6420  French Translation: English to French  3-0-3
Translation techniques from English to French, including idiomatic expressions and extensive practice in written French.

FREN 6650  French Literature of the 20th Century  3-0-3
Selected major literary works of France, from 1901 to the present.

FREN 6950  Directed Study  3-0-3
Study in an area or topic of Francophone literature or the French language not normally found in established courses offered by the department. The work is done under the supervision of a professor.

GEOG: GEOGRAPHY

GEOG 5020  Geoscience Perspectives on Global Climate Change  1-0-1
Also offered as GEOL 5020. Study of global climate change from the perspective of the geoscientist. Topics include whether or not global climate change is occurring, possible causes of global climate change, climate change in the geologic record, implications of climate change on the human population, and proposed methods and policies designed to limit or reverse processes believed to lead to global climate change.

GEOG 5050  Computer Cartography and Image Analysis  2-2-3
An introduction to digital production of general and thematic maps. Lectures and laboratory exercises cover principles of cartography and remote sensing as well as the manipulation and visualization of spatial data and imagery.

GEOG 5051  Introduction to Geographic Information Systems  2-2-3
An examination of geographic information systems, including methods of capture, storage, analysis, and display of spatially-referenced data. Laboratory exercises provide experience with typical GIS operations and applications.
GEOG 5052  Advanced Geographic Information Systems  2-2-3
Advanced applications of GIS including: overlay analysis, writing short macros for repetitive operations, spatial modeling and technical support of complex land use and natural resource management decision making. Laboratory exercises designed to form a cartographic and software portfolio for students.

GEOG 5053  Application Issues in Geographic Information Systems  3-0-3
Operational and planning issues in GIS. Students will learn which issues need to be considered when proposing and implementing a GIS and will have opportunities to evaluate how a GIS can be used to solve specific planning problems.

GEOG 5100  Regional Planning and Environmental Management  3-0-3
Introduction to planning for economic development, service provision and resource management at scales larger than municipalities with an emphasis on the environmental impacts of planning policy and regulation.

GEOG 5120  Geosciences Field Trip  1-8-3
Also listed as GEOL 5120. Prerequisite: GEOG 1113K or GEOL 1121K. Student fee required. Offered only during Summer I sessions. Geology and geography of selected regions studied by readings on the region of interest during the first week, followed by a two-week field trip to points of interest. The interactions among geology, surficial processes, and organisms and how these interactions impact humans will be emphasized. Field trip destination is different each summer.

GEOG 5150  Meteorology and Climatology  3-0-3
A detailed examination of atmospheric motions and climatic controls including, the Earth's radiation and energy balance, air mass dynamics, weather systems, and past and present climates of the Earth.

GEOG 5200  History of Life  2-3-3
Also listed as GEOL 5200. Principles of paleontology with emphasis on the history of life including vertebrates. Includes an account of the outstanding forms of life from the beginning of earthtime to the present, and those paleontologically significant groups that are uncommon, different, or extinct today.

GEOG 5210  An Introduction to Hydrology  3-2-4
Also listed as GEOL 5210. An introduction to surface and subsurface hydrology, examining components of the hydrologic cycle. Topics include local and global water balance, precipitation, interception and infiltration, runoff, stream flow, water storage, and groundwater. This course makes use of some mathematical equations.

GEOG 5300  An Introduction to Process Geomorphology  3-3-4
Also listed as GEOL 5300. An introduction to process geomorphology examining landforms and their formative processes. Topics include weathering and slope, fluvial, coastal, aeolian, glacial and periglacial processes, and the application of soils to geomorphology. This course makes use of some mathematical equations. Field trip required.

GEOG 5310  Physiography of North America  3-0-3
The physiographic description, including the landforms, soils, structural framework, climate, plant and animal geography, natural resources, and the unique environmental problems of each major physiographic province of the United States and Canada, including Alaska, Hawaii, and Puerto Rico.

GEOG 5320  Geomorphology of Fluvial and Coastal Environments  3-0-3
An examination of processes and landforms in fluvial (river) and coastal environments. Fluvial topics include channel geometry and pattern, characteristics of flow, sediment load, bedforms, and floodplains. Coastal topics include the study of waves and tides, coastal sediment transport, beaches, and the effects of changing sea level. This course makes use of some mathematical equations.
GEOG 5410  Cultural Geography  3-0-3
A study of the Earth as the home of humankind, emphasizing the spatial and functional
complexes of human geography. Topics to be considered are population, settlement form,
settling processes, resources, and economic, political, and societal organizations.

GEOG 5510  Urban Community Planning  3-0-3
Principles and applications of planning for neighborhoods, towns and cities with an empha-
sis on the United States. Topics covered include: public services, land-use decision making,
economic development, growth management and the role of non-government organizations.

GEOG 5610  Economic Geography  3-0-3
A study of area variations in human economic activities as related to production exchange,
and consumption of economic goods and services. Emphasis is placed on location of eco-

demic activities and related theories.

GEOG 5710  Environmental Soil Science  3-3-4
Also listed as GEOL 5710. Prerequisites: CHEM 1211K; GEOG 1113K or GEOL
1121K. Soil properties, distribution and classification, factors of soil formation, and the rela-

tionships among soils, geomorphology, and the environment, stressing analysis and use of soils
and soil databases for proper urban, agricultural, and environmental land use.

GEOG 5810  Introduction to Biogeography  3-0-3
Also offered as BIOL 5810. Prerequisites: Three of the following courses: GEOG
1112, GEOG 1113, BIOL 2010, BIOL 2230, BIOL 2270. An overview of factors control-
ling the distribution of plants and animals on the Earth. Topics discussed include ecological
and evolutionary processes, geophysical and climatic phenomena, and historical and anthro-
pogenic events that have influenced current distributions.

GEOG 5910  European Geography  3-0-3
A survey of European geography, with a special emphasis on the European Union. Topic
areas covered include physical, economic, political, and cultural geography of Europe.

GEOG 5920  Geography of the Middle East  3-0-3
A survey of the nations of the Middle East, with a special emphasis on the Arab-Israeli
conflict. Topic areas covered include physical, economic, political, and cultural geography of
the Middle East.

GEOG 6700  Field Methods in Environmental Geography  2-4-4
Study of field techniques and field problems in physical geography. Course includes class-
room presentations, field projects, field trips, and writing technical reports.

GEOG 6800  Internship in Environmental Geography  0-6-3 to 0-12-6
A supervised, practical experience using physical geography skills in an appropriate organi-
zation. Provides the student with an opportunity to apply skills learned during pursuit of
environmental geography degree to real world situations. (Graded on an S/U basis).

GEOG 6900  Special Topics in Geography  1-0-1 to 4-1-6
Topic to be assigned by instructor; the course may be repeated more than once if the topics
are different.

GEOG 6990  Directed Study in Geography  1-0-1 to 4-1-6
Study in area or subject not normally found in established courses offered by the depart-
ment; may also allow students to explore in more detail and/or depth an area or subject
covered by the department.

Most credit notations on the far right are in the pattern 3-0-3. The first number is the
umber of lecture hours (or equivalent) each week; the second number is the number of
aboratory hours (or equivalent) each week; the third number, in bold, is the number of
semester hours credit.
**GEOL: GEOLOGY**

**GEOL 5010 Environmental Geology** 2-2-3
The application of basic geologic principles and techniques to problems in land-use planning, resource management, waste disposal, conservation, energy plant sitings, under-and-above-ground construction, subsidence, construction in seismic areas, slope-stability, urban development and other problems resulting from human interaction with the geological habitat.

**GEOL 5020 Geoscience Perspectives on Global Climate Change** 1-0-1
*Also offered as GEOG 5020.* Study of global climate change from the perspective of the geoscientist. Topics include whether or not global climate change is occurring, possible causes of global climate change, climate change in the geologic record, implications of climate change on the human population, and proposed methods and policies designed to limit or reverse processes believed to lead to global climate change.

**GEOL 5050 Oceanography** 3-0-3
The physical, chemical, geological, and biological characteristics of the ocean and the interactions between the hydrosphere, lithosphere, atmosphere, and biosphere.

**GEOL 5100 Principles of Mineralogy/Petrology** 2-3-3
An introduction to mineral and rock identifications, and the study of the genesis, occurrence, and uses of common minerals and rocks. Laboratory consists of identification of common rocks and minerals.

**GEOL 5101 Mineralogy** 3-3-4
The classification, identification, and crystallography of the principal rock-forming minerals, silicate and non-silicate; and the introduction of the use of the petrographic microscope in the study of the crystallography and identification of minerals.

**GEOL 5102 Petrology and Petrography** 3-3-4
Genesis, classification, and properties of igneous, metamorphic, and sedimentary rocks. Laboratory includes the use of analytical methods, hand specimens, and thin-section study with the petrographic microscope, and the macroscopic and microscopic properties of important rock types.

**GEOL 5120 Geosciences Field Trip** 1-8-3
*Also listed as GEOG 5120.* Prerequisite: GEOG 1113K or GEOL 1121K. Student fee required. Offered only during Summer I sessions. Geology and geography of selected regions studied by readings on the region of interest during the first week, followed by a two-week field trip to points of interest. The interactions among geology, surficial processes, and organisms and how these interactions impact humans will be emphasized. Field trip destination is different each summer.

**GEOL 5200 History of Life** 2-3-3
*Also listed as GEOG 5200.* Principles of paleontology with emphasis on the history of life including vertebrates. Includes an account of the outstanding forms of life from the beginning of earthen time to the present, and those paleontologically significant groups that are uncommon, different, or extinct today.

**GEOL 5210 An Introduction to Hydrology** 3-2-4
*Also listed as GEOG 5210.* An introduction to surface and subsurface hydrology, examining components of the hydrologic cycle. Topics include local and global water balance, precipitation, interception and infiltration, runoff, stream flow, water storage, and groundwater. This course makes use of some mathematical equations.
### GEOL 5220 Invertebrate Paleontology  
2-2-3  
Identification, classification, and natural history of major groups of invertebrates preserved as fossils in the geologic record, with special attention to those forms commonly encountered in the southeastern United States. Emphasis in laboratory will include taxonomic affinities and functional morphology. Saturday (optional) field trips will be scheduled to local areas of interest.

### GEOL 5230 Vertebrate Paleontology  
2-2-3  
Geologic history and evolution of animals with backbones, with coverage of extinct groups such as the Dinosauria.

### GEOL 5250 Micropaleontology  
2-2-3  
The classification, stratigraphic relationships, and methods of study of microfossils with emphasis on the stratigraphically important groups.

### GEOL 5300 An Introduction to Process Geomorphology  
3-3-4  
Also listed as GEOG 5300. An introduction to process geomorphology examining landforms and their formative processes. Topics include weathering and slope, fluvial, coastal, aeolian, glacial and periglacial processes, and the application of soils to geomorphology. This course makes use of some mathematical equations. Field trip required.

### GEOL 5410 Structural Geology  
2-2-3  
Structural features of the rocks, such as folds, faults, joints, cleavage, and primary structures, including their origin, classification, analyses and economic relationships. A study of tectonic plate motion is included. Laboratory work includes depth and thickness problems, structure sections, and structure contour maps.

### GEOL 5450 Field Methods in Geology  
2-4-4  
An introduction to the basic tools and techniques used in preparation of topographic and geologic maps, and profiles and cross-sections. Includes uses of plane table, alidade, brunton compass, and aerial photographs.

### GEOL 5500 Principles of Geochemistry  
3-2-4  
The application of chemical principles to study of geological and environmental processes. Course emphasis is on understanding processes that influence the chemistry of water, sediment, and soil. Specific topics include aqueous solutions, thermodynamics, mineral-water equilibria, oxidation-reduction reactions, and radiogenic and stable isotopes. Laboratory component of the course is field-based.

### GEOL 5710 Environmental Soil Science  
3-3-4  
Also listed as GEOG 5710. Prerequisites: CHEM 1211K; GEOG 1113K or GEOL 1121K. Soil properties, distribution and classification, factors of soil formation, and the relationships among soils, geomorphology, and the environment, stressing analysis and use of soils and soil databases for proper urban, agricultural, and environmental land use.

### GEOL 6110 Principles of Stratigraphy  
3-0-3  
The interrelationships of stratigraphy, sedimentation, and paleogeography; methods in stratigraphy and correlation.

### GEOL 6900 Special Topics in Geology  
1-0-1 to 4-4-6  
Topics to be assigned by instructor; may be taken more than once if topics are different; up to a total of 6 credit hours.

### GEOL 6950 Directed Studies in Geology  
1-0-1 to 4-4-6  
Study of subjects not normally found in established courses offered by this department; may also allow students to explore in more detail and/or depth subjects covered by this department, up to a maximum of 6 credit hours.

ITED: INSTRUCTIONAL TECHNOLOGY

ITED 7000 Technologies for Teaching and Learning 3-0-3
Exploration and application of tools and techniques to support education, academic productivity, and professional development. Includes legal and ethical issues related to technology.

ITED 7040 Thinking and Learning with Computers 3-0-3
Exploration of computer applications as cognitive tools for engaging and enhancing thinking in learners. Examines the theoretical, pedagogical, and practical reasons for using computers as thinking tools.

ITED 7050 Distance Education 3-0-3
Introduction to distance education technologies and their utilization as instructional delivery systems.

ITED 7070 Decision-Oriented Research and Evaluation 3-0-3
Introduction to field-based research and evaluation issues and methodologies. The course covers problem identification, sources of data, communication with clients, legal and ethical considerations, use of data for decision making, and research and evaluation techniques, including action research.

ITED 7080 Technology and Learning Standards 3-0-3
Integration of technology into learning environments with an emphasis on matching technology with instructional approaches, content, student needs, and assessment to meet Georgia Performance Standards.

ITED 7100 Foundational Theories in Instructional Technology 3-0-3
Introduction to theories of learning, instruction, communication, information, and systems as applied to research and practice in the field of instructional technology. Includes presentation skills and instructional techniques.

ITED 7200 Information Sources and Uses 3-0-3
Introduction to information sources including Internet and databases, search strategies, information retrieval, access issues, legal and ethical issues, and evaluation of information.

ITED 7201 Information Resources and Services 3-0-3
Development and application of knowledge and skills necessary to provide information resources and services in P-12 school media centers. The course includes strategies for integrating information access skills into the curriculum, selecting and evaluating resources in various formats, building media center collections, and delivering traditional and electronic services.

ITED 7202 Bibliographic Organization 3-0-3
Introduction to basic cataloging and classification tools and processes as applied to integrated electronic systems. This course includes bibliographic networks, resource sharing, and database maintenance and evaluation.

ITED 7203 Administering School Media Centers 3-0-3
Study of school library media professionalism and the organization, functions, facilities, and management of P-12 school media centers. This course includes planning, coordinating, supervising, budgeting, and evaluating media center personnel, services, and programs.

ITED 7299 Internship in School Media Centers 3 hours credit
Prerequisite: Approval of advisor. Supervised field experience in administering P-12 school media centers.

ITED 7300 Instructional Design 3-0-3
Introduction to the systematic design of instruction and applied research, including front-end analysis, use of instructional learning theories to select learning strategies, assessment, and formative and summative evaluation.
ITED 7301 Systematic Design of Instruction 3-0-3
Application of systematic design principles to instructional and non-instructional projects. Includes project management, team building, and development issues for different delivery systems.

ITED 7302 Needs Assessment 3-0-3
Application of research and evaluation skills to a field-based needs assessment; investigation of non-instructional solutions with attention to performance improvement. The course includes the use of job task analysis, consideration of organizational cultures, and application of team-building skills.

ITED 7303 Advanced Instructional Design 3-0-3
Prerequisite: Approval of advisor. Development of a professional project in which students design, implement, and evaluate an instructional product or learning environment.

ITED 7399 Internship in Technology Applications 3 hours credit
Prerequisite: Approval of advisor. A university-supervised field experience in an instructional technology setting.

ITED 7400 Computer and Network Technology 3-0-3
Introduction to computer system components, connections, network equipment, and delivery system management. Emphasis is given to concepts and hands-on activities related to configuration, specifications, standards, and installations.

ITED 7401 Using Networked Systems for Teaching and Learning 3-0-3
Practical experiences in setting up, managing, and using network applications to support instruction, collaboration, and computer-mediated communication.

ITED 7403 Instructional Technology Seminar 3-0-3
In-depth investigations of specific contemporary topics and technologies using computer-mediated communications. Electronic media are the primary vehicles for course content and contact.

ITED 7500 Management and Production of Multimedia Projects 3-0-3
Design, production, and management of multimedia projects for instruction. Emphasis is on design, development, utilization, management, and evaluation of team-bases projects.

ITED 7900 Special Topics in Instructional Technology 1-0-1 to 3-0-3
In depth study of specific issues in instructional technology. Course may be repeated under different topics.

ITED 8100 Theories, Models, and Perspectives of Instructional Technology 3-0-3
Survey and analysis of the theoretical perspectives of change, communication, diffusion, systems, learning, and instruction as applied in instructional technology.

ITED 8200 Instructional Design for Training and Education 3-0-3
Applications of systematic design principles to address as identified need in a training or education context. This course includes problem identification, message design, instructional strategies, and learner characteristics.

ITED 8300 Technology Tools for Training and Education 3-0-3
Prerequisite: ITED 8200. Application of various technologies and products for instructional development. Includes in-depth use of computer-related technology tools to create effective instructional materials.

ITED 8400 Technology Selection for Learning Environments 3-0-3
Practical experiences as evaluators and consumers of educational technology based on research and review of commercial, educational, and other authoritative sources. The course includes source, vendor, and product analysis, study of effectiveness and other benefits, and incorporation in technology plans and facilities.

ITED 8500 Leadership in Instructional Technology 3-0-3
A study of theories and techniques for facilitating instructional and technological change. Emphasis is on team building, reflective practice and application in a field-based setting.
ITED 8900 Special Topics in Instructional Technology  1-0-1 to 3-0-3
Advanced study of specific contemporary issues in instructional technology. Course may be repeated under different topics.

ITED 8960 Best Practices Literature in Instructional Technology  3-0-3
Broad critical analysis of professional literature in order to define, frame, and contextualize action-research projects. The use of print and on-line resources to identify important theoretical and empirical contributions that connect action-research interests to existing professional literature is discussed. Emphasis is placed on learning the skills of reviewing literature and applying the conventions of academic writing using the Publication Manual of the American Psychological Association.

ITED 8970 Action Research Methods and Planning  3-0-3
Prerequisite: ITED 8960 or permission of the instructor. An in-depth study of the foundations, assumptions, methods, techniques, and ethics of action research, along with a framework for evaluating action-research studies. The focus is on designing a study to enhance technology-based learning and human performance in a learning organization.

ITED 8999 Action Research Project  3 hours credit
