The Department of Middle, Secondary, Reading, and Deaf Education is a multidisciplinary department that offers the B.S.Ed. degree with a major in middle grades education, deaf education, or American sign language/interpreting.

The department offers a program of study in middle grades education (grades 4-8) with candidates choosing two concentrations selected from language arts, mathematics, science, reading, or social studies. The programs provide experiences that allow preservice teachers to develop the content knowledge and pedagogical skills necessary for meeting the diverse needs of their future students. Emphasis is placed on student-centered and reflective approaches for communicating effectively, using the tools of inquiry, developing learning opportunities for all students, integrating technology into instruction, and fostering relationships within the larger community. A pre-professional degree is available in deaf and hard-of-hearing (P-12) with a professional degree available with a major in American sign language/interpreting. Candidates are prepared in areas of instruction, service, assessment, and multiple modes of communication.

Freshmen who are interested in initial teacher certification in secondary education (grades 6-12) will first complete a B.A. or B.S. degree in a content teaching field and then enter the Alternative Certification Track Master's Program (ACT) in the Department of Middle, Secondary, Reading, and Deaf Education.

Bachelor of Science in Education Degree with majors in:
Middle Grades Education,
Deaf Education, or
American Sign Language/Interpreting

Each of these three programs in the department has numerous desired outcomes. Examples of these outcomes include the following:

Selected Educational Outcomes

1. Students in initial teacher education programs know the content that they plan to teach and can explain important principles and concepts delineated in professional, state, and institutional standards.
2. Students in initial teacher education programs understand the relationship of content and content specific pedagogy and have a broad knowledge of instructional strategies that draws upon content and pedagogical knowledge and skills delineated in professional, state, and institutional standards to help all students learn.
3. Students in initial teacher education programs are able to analyze educational research findings and incorporate new information into their practice.
4. Students in initial teacher education programs assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.

The departmental faculty members assess the desired learner outcomes for these three programs by using a variety of techniques. Examples of summative assessments in addition to course evaluations include the following:

**Examples of Outcome Assessments**

1. Students in initial teacher education programs will demonstrate content knowledge through passing the state-required content assessment.
2. Students in initial teacher education programs will demonstrate pedagogical content knowledge and knowledge of evidence-based strategies through development of lesson plans identifying use of research-validated procedures and effective content pedagogy.
3. Students in initial teacher education programs will demonstrate skills in assessment, instructional strategies, use of technology, and monitoring and modifying instruction during observed teaching episodes evaluated by a university supervisor and P-12 mentor teacher.
4. Students in initial teacher education programs will demonstrate their ability to positively impact P-12 learning through a Teacher Work Sample (TWS).

The Department of Psychology and Counseling provides programs of study at both the undergraduate and graduate levels. At the undergraduate level, the Department offers B.A. and B.S. degrees with a major in psychology. Psychology is an exciting and popular undergraduate major and minor at Valdosta State University. Undergraduate psychology training assists in preparing students for a number of career alternatives in government, business, industry, etc., that do not require more advanced training. It also assists in preparing students for professional or graduate school in psychology, law, physical or occupational therapy, social work, business, education, and other areas. At the graduate level, the department offers the M.S. degree in psychology in clinical/counseling and industrial/organizational. Graduates are prepared to perform services in mental health settings, businesses, community colleges, government or industries that require graduate training in psychology at the subdoctoral level.

The department also offers programs leading to the M.Ed. and Ed.S. degrees in school counseling and the Ed.S. in school psychology. Information concerning these programs, their admission requirements, continuing education, and other services offered by the Department can be obtained by contacting the department.

Department Mission Statement

The Department of Psychology and Counseling serves the citizens of the region and state by offering instruction, research, and services designed to advance the understanding of behavioral and cognitive processes and to improve the quality of life. The principle function of the department is to prepare students at the undergraduate and graduate levels to pursue careers within the discipline and affiliated areas. A related purpose is to provide courses for programs in education, nursing, and other disciplines. At the baccalaureate level, students develop basic skills in scientific research, knowledge of psychological nomenclature and concepts, and are introduced to the diverse applications of psychology. The graduate programs prepare students to apply skills in schools, mental health agencies, government, industry, and other settings. Training at the graduate level is designed to prepare qualified, responsible professionals who may provide assessment, consulting, counseling, and other services to the citizenry of the region.
BACHELOR OF ARTS DEGREE WITH A MAJOR IN PSYCHOLOGY and

BACHELOR OF SCIENCE DEGREE WITH A MAJOR IN PSYCHOLOGY

These programs introduce students to the liberal arts and to psychology as a scientific discipline, with content and methods able to improve the human condition. To declare psychology a major you must have completed 45 hours of coursework in the Core and averaged at least a “C” or better (≥ 2.0 GPA) in all your previously attempted coursework. You must also earn a “C” or better (≥ 2.0 GPA) in each and every required psychology course and prerequisite. Each program in the department has desired outcomes. Examples of these outcomes for the Bachelor of Arts and the Bachelor of Science Degrees include:

Selected Educational Outcomes

Students will

1. design, run, and analyze research studies and write reports using APA style
2. use appropriately the technical language of the science of psychology in oral and written communication
3. examine and evaluate career and educational opportunities for those with an undergraduate psychology degree

Requirements for the B.A. Degree with a Major in Psychology

One natural science course ................................... 3 hours
One mathematics course (MATH 1111 or MATH listed in Area D of the Core Curriculum) ................. 3 hours
One natural science or math course (MATH 1111 or MATH listed in Area D of the Core Curriculum) .......... 3 hours
Upper level requirements are the same for the B.A. and B.S. degrees.

**Upper Division Courses Required for the Major** ................................. 36 hours

- PSYC 3200 or PSYC 3210 or PSYC 3220 ........................................... 3 hours
- PSYC 3500, PSYC 3600, PSYC 3900 .................................................. 9 hours
- PSYC 3400 or PSYC 3450 ................................................................. 3 hours
- Two courses selected from ............................................................... 6 hours
  - PSYC 3300, PSYC 3700, PSYC 3710,
  - PSYC 3800, PSYC 3850, or PSYC 3110 or 3130
- PSYC 4100 or PSYC 4150 .................................................................. 3 hours
- PSYC 4000 or PSYC 4050 ................................................................. 3 hours
- One course selected from ................................................................. 3 hours
  - PSYC 4900 or PSYC 4950 or PSYC 4991-4992-4993
- Two of the following (not taken to fulfill above requirements) ............... 6 hours
  - PSYC 4000, PSYC 4050, PSYC 4100, PSYC 4150, PSYC 4300,
  - PSYC 4500, PSYC 4800, PSYC 4900, PSYC 4950, PSYC 4991-4992-4993.

**Guided Electives** .............................................................................. 24 hours

*If Area F requirements for the Valdosta State University B.A. or B.S. degree with a major in psychology are not taken in Area F or another Area, they must be taken as Guided Electives.

Students, in consultation with their advisor, will take an additional series of courses, possibly a minor, that will further differentiate between the BA and the BS degrees. These electives will also allow for increased skill development that will help the student continue on to a graduate or professional school or to obtain employment in a career not requiring post-baccalaureate training. Although only 39 hours of 3000 and 4000 courses are required by the Board of Regents of the University system of Georgia, the student should not assume the minimum to be the maximum.

**Total hours required for the degree** ...................................................... 120 semester hours
The department assesses the extent to which program requirements create the desired outcomes by a variety of techniques. Examples of these assessments (and related educational outcomes) include the following:

**Examples of Outcome Assessments**

1. Student research reports will be assessed by individual faculty members using appropriate criteria.
2. Students will be assessed on various measures during their senior year.
3. Students will assess academic advising.

**Minor in Psychology** ................................................................. 18 hours

PSYC 2500 and fifteen (15) hours of additional course work constitute the minor in psychology. PSYC 2500 must be completed before any of the other courses in the minor can be taken, and a grade of “C” or better must be earned in each course in the minor.
