Workshops

Screen Capture Training | Camtasia 8.0
Camtasia is one of the leading programs for screen capturing. This tool allows for dynamic video enhancements for screen captured PowerPoints, software demonstrations, or even inserted video clips through the Cam Studio side. Use Cam Record to capture a specific window on your screen, your entire monitor, or dual capture yourself and any part of your monitor simultaneously. Our goal for this class is to familiarize everyone with the functions of recording the screen, working with multi-track editing functions, adding visual effects, and animations in your finalized product. This is video editing made simple.

Photoshop Basics
Photoshop is by far the most well-known program of the Adobe Suite. Although this program is so well known, there is often a huge barrier placed up by many who fear it. Let’s break that barrier and learn the overall workspace, and importance of layers. With this foundation down, we will work towards a few of the many fun and engaging tools of how Photoshop has gone beyond its intended purpose of photo editing.

PowerPoint Poster Creation
The PowerPoint: Poster Creation workshop is geared to assist students who have never developed a poster before. The goal of this class is to give a ground level understanding of what print sizes the New Media Center has to offer. We will show how to use PowerPoint to create an academic level poster. Topics of the class include poster sizing, background layout, proper elements used for an academic poster, etc. Using the tools offered in PowerPoint is easy. Learn the tools here and use your imagination to be creative.

Windows Movie Maker
Learn the basics of video editing by familiarizing yourself with the time-line, adding animations, effects and many other interactive features in Movie Maker. We will have video cameras and Movie Maker equipped workstations ready for you to learn with. This is a hands on workshop where we can develop our video projects by combining all our media types into Windows Movie Maker for manipulation and creation.

Policies

Equipment Checkout: To be eligible to check out equipment a patron must: 1. Be a current student, faculty member, or staff member, 2. Present a current Valdosta State University ID, 3. Have an academic need for the equipment.

Late Fees: All equipment are subject to our late fee policy. Late fees totaling in over $10 must be paid within 30 days in order to avoid a Banner hold being placed. Online payment is now available through Marketplace.

Checkout Privileges: Students who have accumulated late fees totaling $10 and over are subject to a loss of equipment checkout privileges. These privileges can be reinstated once the late fees have been paid.

Equipment Reservations: In order to guarantee availability of high demand items such as LCD projectors or PA systems, patrons should place reservations in advance. There is no limit as to how far in advance a customer may request materials, but each item has particular restrictions on how long it may be issued to a patron.

Room Reservation: New Media Center editing suites and Classroom can be reserved for a 2 hour interval by current VSU members. In order to guarantee your reservation, reserve in advance.

Copyright: The New Media Center adheres to the copyright policy set forth by Valdosta State University. Specifically, Valdosta State University recognizes the importance of the Copyright Law of the United States (Title 17, United States Code) and prohibits copying or use of copyrighted material not specifically permitted or exempted by law. Please visit our website for our full copyright policy.
Services

Audio Editing
• Adobe Audition
  • Audacity

Video Editing
• Adobe Premiere
  • Adobe After Effects
  • Final Cut
  • Movie Maker
  • Camtasia

Digital Imaging & Poster Creation
• Adobe Photoshop
  • Adobe Illustrator
  • Adobe InDesign
  • PowerPoint
  • Publisher

Scanning
• Scan up to 13"x19" with available larger scanners
  • Optical Character Recognition (OCR) scanning using Scansnap, Omni Page 8, OneNote, and Adobe Acrobat Pro
  • 35mm slide scanning

Media Transfer and Duplication
• CD/DVD duplication
  • Digitization and Transfer of: Stereo/Mono Reel to Reel, Audio Cassette, Hi-8, Mini Dv, VHS, and VHS-C

3D Printing
• Makerbot Replicator and Lulzbot 3D printers available for pre-generated 3D models using software such as AutoCAD and 123D Design
  • 123D Design available on lab machines

Large Format Printing
• Print on 24" and 42" roll paper
  • Lamination available up to 24" wide

Editing and Recording Suites
• 3 private editing and recording suites available
  • Please reserve in advance, walk-ins available

Lamination
Linear Foot ...................................................... .60¢ ea.
Business Card .................................................. .30¢ ea.

Binding
Spiral Binding .................................................... .25¢ ea.
