INTRODUCTION

Search Committee Actions in PEOPLEADMIN:

1. Review Applicants
2. Evaluate Applicants

BEST PRACTICES

Review and assess all applicant files using established criteria (reviewers should commit to spending a minimum of 15-20 minutes per applicant to ensure equitable review of all candidates and allay potential for unconscious biases to shape evaluation)

Maintain confidentiality of the process at all times:

- All search committee deliberations, as well as all information related to the work of the committee, whether verbal or written must remain confidential.

It is important to consider an applicant’s entire career—some applicants may have less traditional routes to the position being hired and may have employment gaps. Evaluating the entire career can help understand all of the strengths an applicant will bring to the position and the department.

Documenting why each applicant has been screened out during the process is vital to appropriate record keeping. The department or program, as well as the search committee, must be able to defend such decisions if a complaint is filed and an investigation required.

Once assigned as a Search Committee Member, you will be notified via a system-generated email of your role and provided with the instructions to access your Search Committee Roster of Applicants.

Committee members will NOT be notified via email every time an applicant applies.

Security of Applicant Data

To ensure the security of the data provided by applicants, the system will automatically log you out after 60 minutes if it detects no activity. However, anytime you leave your computer we strongly recommend that you save any work in progress and log out of the system by clicking on the logout link located at the top of the page.
SETTING UP A SEARCH COMMITTEE:

Once a Hiring Manager has made a selection for the Search Committee and Search Committee Chair all Committee Members must have the “Search Committee” User group added to their profile in PEOPLEADMIN.

Prior to setting up the position HR should be notified with all of the Search Committee Members to ensure they have the “Search Committee” User Group.

1. During the “Creating a New Posting” process there is a SEARCH COMMITTEE tab.
2. Enter the information for all Search Committee Members. They will be ‘pending’ until HR approves the search committee members.

NOTE: If a VSU employee is not showing up after entering their First Name, Last Name, and Email Address they are not set up with the “Search Committee” User Group and HR Should be notified. If the individual is not a VSU employee use the “New Search Committee Member” area.
SETTING UP RANKING CRITERIA:

1. During the “Creating a New Posting” process there is a RANKING CRITERIA tab.

2. To add criteria for the Search Committee to Rank click the “ADD A CRITERION” button.

3. Click Add a New One

4. Assign a Name, Label, Status (active), and a Description, which is the question itself. You also need to decide if the question will be open ended or Pre-defined answers. Predefined tend to be more objective measures and are easier to add a point value.

5. Assign the criterion to a workflow state and if you would want to weigh the question in association with the other criterions.

6. The Search Committee Chair will have access to all answers and can export them as well as a PDF/Excel document.
