The logo features the number '30' in a large, white, stylized font. To the right of the '0', the words 'YEARS' and 'ANNIVERSARY' are stacked vertically in a smaller, white, sans-serif font.

Louis Stokes Alliances for Minority Participation

Join Us in the Celebration!

The NSF Louis Stokes Alliances program is celebrating its 30th Anniversary during the entire month of October. We have several special events planned to commemorate and celebrate the program's longevity and its impacts since 1991.

Oct 8th @ 3pm ET - LSAMP 30th Anniversary Celebration
Event **LSAMP: A Gamechanger in Cultivating STEM Talent**

There is no cost for registration. All are welcome!

LSAMP
A Gamechanger in Cultivating STEM Talent
Friday, October 8, 2021, at 3pm ET

LSAMP Trivia: Did you know?

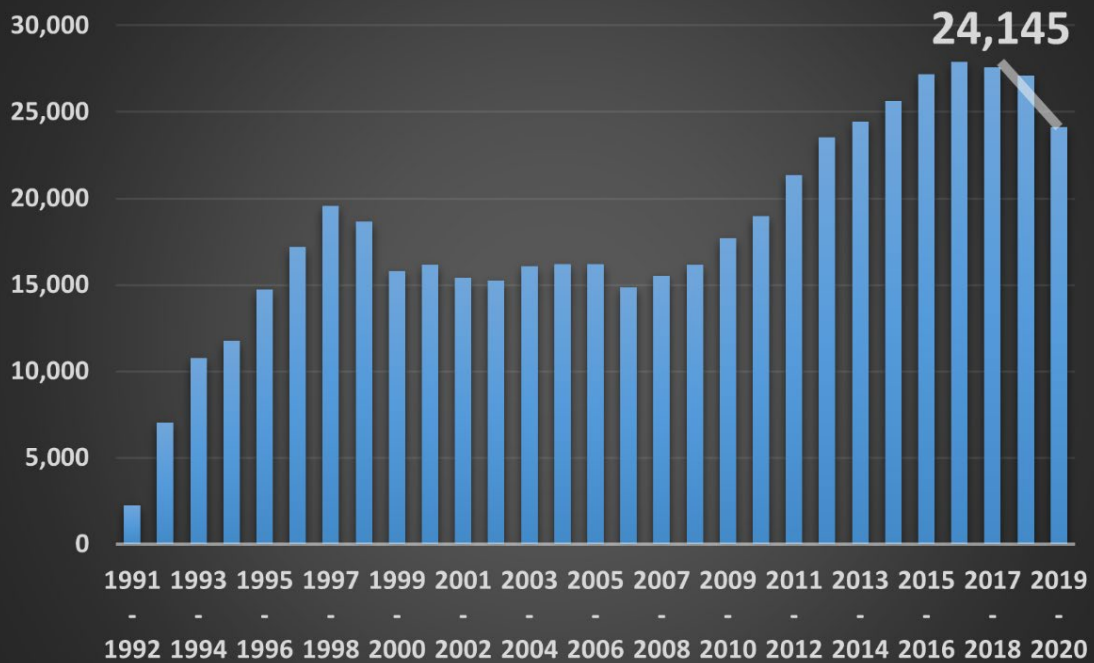

In 1991, the first **6** alliances were funded by the National Science Foundation. These original alliances are referred to as, "The Grand AMPs". Today, the Program has grown to **55** alliances across **565** institutions of higher education.

The LSAMP Program is named after the late, Honorable, **Louis Stokes**, (February 23, 1925 – August 18, 2015) Democratic United States House of Representative from Ohio. Stokes began practicing law in Cleveland in 1953. Stokes argued the seminal “stop and frisk” case of *Terry v. Ohio* before the United States Supreme Court in 1968. In 1991, the National Science Foundation renamed the "Alliances for Minority Participation" to the "Louis Stokes Alliances for Minority Participation" as a tribute to Congressman Stokes, a champion of access to education for all. (Credit: [TAMUS website](#))

The LSAMP Program has grown to support nearly 25K students PER YEAR since 1991.

In addition, the LSAMP Program has supported more than **650,000 STEM students** from African-American, Hispanic American, Native American, Alaska Native and Native Hawaiian and Native Pacific Island Students since its inception.

Oct 15 @ 4p ET - LSAMP 30th Anniversary Celebration
Event **Perspectives on Progression and Institutionalization of LSAMP Best Practices**

There is no cost for registration. All are welcome!

Perspectives on the Progression and Institutionalization of LSAMP Best Practices
Friday, October 15, 2021, at 4pm ET

Coded Bias screening and panel discussions

In collaboration with the Wisc-AMP STEM Inspire Program, LSMRCE is pleased to bring the LSAMP community the opportunity to view the documentary, *Coded Bias*, and participate in two panel discussions around the topic of AI and the responsibility we have as STEM innovators in developing technology that is ethical and inclusive to all. **The viewing and panels are free and everyone is welcome.**

PANEL DISCUSSIONS

Watch the documentary, then join the discussion! We are offering two discussion sessions about the film. The first is hosted by Wisc-AMP STEM Inspire Program at University of Wisconsin at Milwaukee and offers a variety of panelists discussing the topic of data and technology inclusiveness. The second panel discussion is with the film director, Shalini Kantayya and will be held as part of the [LSMRCE Annual Conference](#).
